**Re: Osteopathic Political Action Committee – C00113803
Partial Response to Request for Additional Information
Relating to July Quarterly Report (4/1/96 - 6/30/96)**

Dear Mr. Ng:

This letter responds to the first additional information request set forth in your letter of January 29, 1997, in connection with the July Quarterly Report (4/1/96 - 6/30/96) of the Osteopathic Political Action Committee ("Committee"). As you know, the Committee prepared and filed with the Commission on February 28, 1997, amendments to the Summary and the Detailed Summary Pages of its July Quarterly Report, in order to address the second additional information request of your letter (i.e., regarding overlapping coverage dates).

DISCREPANCY BETWEEN BEGINNING CASH BALANCE ON JULY QUARTERLY REPORT AND ENDING CASH BALANCE ON APRIL QUARTERLY REPORT.

The Committee filed its July Quarterly Report on August 14, 1996, following a letter (dated July 24, 1996) to, a meeting (on August 6, 1996) with, and -- with regard to the method of reporting the cash-on-hand discrepancy discovered by the Committee -- in accordance with the advice of staff of the Reports Analysis Division of the Federal Election Commission ("Commission").

The Cash Balance Discrepancy

In May, 1996, the Committee closed its long-standing money market account with William Blair & Company in Chicago (Account No. 150-71382-1-0-447, which was established in 1981, and to/from which there had been no transfers of funds for almost twelve (12) years). Three checks from William Blair & Company (in the amounts of \$7,698.75, \$18,697.61, and \$7,698.75) totaling \$34,095.11 were deposited in the Committee's checking account (Account No. 17957508) with the American National Bank and Trust Company of Chicago ("American National"). See Account Statements from William Blair & Company (5/01/96 to 5/31/96) and American National

McCULLOUGH, CAMPBELL & LANE

Mr. Richard Ng

March 6, 1997

Page 2

(05/31/96 and 06/28/96) (Attachment 1). The Committee's subsequent reconciliation of its checking and money market account balances, in connection with preparation of the July Quarterly Report, resulted in a discrepancy of \$36,975.34 between the amount reported by the Committee as its ending cash-on hand balance in its April Quarterly Report and the amount to be reported on the Committee's July Quarterly Report.

Committee Internal Review

Thereafter, the Committee initiated an exhaustive search of all available records in an effort to identify the cause of the discrepancy. In connection with its internal review, the Committee located and reviewed: (1) its Reports of Receipts and Disbursements filed with the Commission from 1979 - 1996; (2) internal Committee contribution/deposit records (kept informally for recordkeeping purposes); (3) various photocopied contributors' checks and associated deposit slips for the Committee's checking account (none of which related to transfers involving the Committee's money market account); (4) money market account statements from William Blair & Company; and (5) monthly checking account statements from American National Bank and Lake Shore National Bank ("Lake Shore"), the institution with which the Committee held a checking account until July, 1994, when Lake Shore was acquired by American National.

The Committee has maintained the above-referenced internal contribution/deposit records since its inception in 1979 (but has been unable to locate such records covering the periods 1/81 - 4/81 and 7/81 - 9/81)(see, e.g., available internal contribution/deposit records through early 1985 (Attachment 2)), and money market account statements from establishment of the account in 1981 through closure in 1996 (with the exception of any statement covering the period 8/82 - 12/82, which the Committee was unable to locate). However, the Committee's monthly checking account statements were available only for the periods from 5/86 - 3/87 and from 5/88 to the present time. In an effort to obtain and review pre-1986 checking account statements, the Committee contacted American National. An American National official informed the Committee that the bank has a six (6) year document retention policy, and that all Committee checking account records prior to 1990 had been destroyed. (Likewise, the Committee contacted William Blair & Company in hopes of locating the money market account statement for the 8/82 - 12/82 period, but was similarly advised that said statement was unavailable as a result of that Company's document retention policy.)

The Committee's comprehensive internal review yielded the following information:

Establishment of Money Market Account with William Blair & Company

On May 27, 1981, the Committee made a wire transfer of \$17,000 from its checking account with Lake Shore National Bank (Account No. 560-086-1) to a money market account (Account No.

McCULLOUGH, CAMPBELL & LANE

Mr. Richard Ng

March 6, 1997

Page 3

1457138210-4) with the William Blair & Company. See Account Statement from William Blair & Company, 1981 (Attachment 3).

Taking into account typical timing considerations (e.g., the actual dates on which contributions are deposited in relation to their inclusion in Committee Reports, and the actual dates on which Committee disbursements are presented for payment by recipients), the Committee firmly believes, and examination of its internal contribution/deposit records appears to verify (in the absence of pre-1986 checking account statements), that it indeed had sufficient funds in its checking account on May 27, 1981 to cover the \$17,000 wire transfer. See Attachment 2.

Transfers Between Committee Checking and Money Market Accounts

During the period from May 27, 1981 through October 18, 1984, additional transfers were made to and from the Committee's money market accounts. See Account Statements from William Blair & Company, 1982 - 1984 (Attachment 4). For the nearly twelve (12) year period from October 18, 1984 until May, 1996, when the Committee closed the money market account with William Blair & Company (and transferred the balance to the Committee's checking account by deposits dated May 15 and June 13, 1996), the Committee made no deposits in, or withdrawals from, its money market account. See Account Statements from William Blair & Company, 1984 - 1996 (Attachment 5).

During the entire period from May 27, 1981 through May, 1996, all investment income from the money market account was reinvested automatically in the William Blair & Company account. See Attachment 5. (Note that during this time the William Blair & Company money market account number was changed from 1457138210-4 to 150-71382-1-0-447.)

Reporting by Committee of Interest from Money Market Account

Following the establishment of the money market account with William Blair & Company on May 27, 1981, and until its closure in May, 1996, the Committee reported interest from the account in the Reports of Receipts and Disbursements filed by the Committee with the Commission. Interest from the money market account was first reported in the Committee's 1981 Year-End Report covering the period 7/1/81 - 12/31/81.

Committee Bookkeeping Error

The Committee believes (but, as explained below, cannot confirm in the absence of checking account statements for that period) that, at some time following establishment of the money market account with William Blair & Company on May 27, 1981, there was a bookkeeping error in recording the balances of the Committee's money market and checking account for purposes of preparing the Committee's Reports of Receipts and Disbursements to be filed with the

McCULLOUGH, CAMPBELL & LANE

Mr. Richard Ng
March 6, 1997
Page 4

Commission, the result of which was exclusion of the money market account from the cash-on-hand figure reported to the Commission. Presumably, an erroneous conclusion that "cash-on-hand" referred only to the Committee's checking account balance was made. Over time, as the balance in the money market account with William Blair & Company increased, the Committee's actual cash balance in excess of the cash on hand figure reported to the Commission in its periodic Reports of Receipts and Disbursements grew to approximately \$37,000. In the absence of Committee checking account statements for the period prior to 5/86, the Committee has been unable to identify the precise time frame during which such a bookkeeping error may have occurred.

Disclosure of the Discrepancy to the Commission

Following engagement of Washington legal counsel and review of all available documents, the Committee requested a meeting with the Commission's Reports Analysis Division. On August 6, 1996, the Committee's Washington legal counsel met with Mr. J.P. Andre and Ms. Jennifer Wall of the Reports Analysis Division in order to disclose the discrepancy in the Committee's cash balance, to outline the Committee's efforts to identify and explain the circumstances surrounding the discrepancy, and to seek guidance on how the discrepancy should be reported in the Committee's July Quarterly Report. The Committee subsequently provided Mr. Andre with copies of all of its Reports of Receipts and Disbursements filed with the Commission during the period from 1979 - 1996.

After that meeting, in accordance with the instructions of the Reports Analysis Division, the Committee reported the discrepancy, without a memo entry, in its cash-on-hand balance in its July Quarterly Report and in all subsequent Committee Reports of Receipts and Disbursements that have been filed with the Commission.

Conclusion

As explained during meetings with the Commission's Reports Analysis Division on August 6, 1996, and again on December 11, 1996, the Committee has undertaken extensive efforts to attempt to pinpoint the time and ascertain the cause of the presumed bookkeeping error which appears to have occurred during the early 1980s. Regrettably, the unavailability of checking account statements for the period from 1979 - 1986 has frustrated that effort. The Committee, despite its best efforts, is simply unable to identify when – presumably during the period from May 27, 1981, when the money market account was opened, through October 18, 1984, the date of the last transaction involving any additions to or withdrawals from the money market account (until closure of the money market account in 1996) – the bookkeeping error occurred.

McCULLOUGH, CAMPBELL & LANE

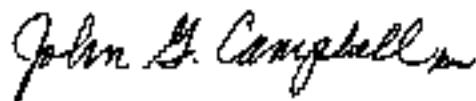

Mr. Richard Ng
March 6, 1997
Page 5

The Committee's disclosure of the discrepancy to the Commission during the meetings requested by the Committee on August 6, 1996, and December 11, 1996, and its request for guidance from the Reports Analysis Division in order to facilitate proper reporting of the Committee's cash balance, reflect the Committee's long-standing desire to operate in full compliance with the Federal Election Campaign Act of 1971, as amended, and the Commissions's regulations. For example, internal Committee records reveal evidence of the Committee's diligent compliance efforts, including returning checks from corporate contributors, avoiding possible contributions in the name of another, and avoiding contributions from individuals who were otherwise unable to contribute to the Committee.

The Committee appreciates the time spent by you and your colleagues in the Reports Analysis Division to assist the Committee in its efforts to resolve the reporting issues raised by the error in properly recording the Committee's money market account balance in past Reports of Receipts and Disbursements.

If you require any additional information, please do not hesitate to contact me at any time. Thank you for your assistance in this matter.

Sincerely,

John G. Campbell
Counsel to the Osteopathic Political Action Committee
